

Marvin T. Barnes

Capabilities Statement

Company Overview

My name is Marvin T. Barnes. On November 13, 2023, while sitting in my recliner at home in Tallahassee, FL, I decided to name my business after myself. Over the years, I have attempted to start various businesses—online investments, Bitcoin, supply chain management, and drop shipping. I also invested in companies and sought coaching to guide me toward my entrepreneurial goals. Unfortunately, none of these ventures were successful.

Through these experiences, I learned the importance of failing in business as a step towards success. Now, I am focused on learning how to succeed. Part of this journey involves educating myself, investing in my own potential, and believing in myself—hence the decision to name the business after me.

As a disabled veteran of the Iraq and Afghan wars (Operation Iraqi Freedom and Operation Enduring Freedom), I have faced significant challenges in readjusting to civilian life and the workforce. This has inspired me to establish my next business as "Veteran Owned & Veteran Oriented," targeting city, local, regional, and government contracts. Additionally, I aim to hire veterans and their family members, providing meaningful employment opportunities for those who have served our country.

Small Business Data

CAGE Code: **9UNK9**
